To Whom It May Concern:

My name is Rodney Meyers. I am president of the Hawaiian Inn Beach Resort Condominium Association, Inc., Daytona Beach Shores, Florida. Hurricane Ian and Nicole were highly destructive to our resort. The Hawaiian Inn is a 210-unit resort. The hurricane devastated our facility. We lost almost 500 foot of Seawall and there was significant the erosion.

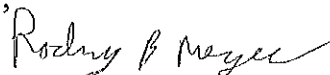

With much due diligence, we hired East Coast Marine Construction to rebuild our Seawall on the Atlantic Ocean. I highly recommend East Coast Marine Construction if you find yourself in a similar position. Their pricing is competitive and their work is impeccable. They rebuilt our seawall with steel and concrete construction, handled all permitting issues

They completed their work done in a timely fashion. Keep in mind this is 500 feet of Seawall. this was not a fast or cheap endeavor, but we ended up with a fortress for Seawall that is both strong and aesthetic. They also did our stairway to the sea, fencing on top of the Seawall and re-sodded our grassy areas along with other cosmetic issues.

I write very few letters of recommendations; however, their communication was so good and the quality was unbeatable. I highly recommend this company.

If you are in need, feel free to call me personally will be glad to talk to you individually

Sincerely,

Rodney B. Meyers, President
