East Coast Marine Construction & Design
150 S. Palmetto Ave. Suite 201
Daytona Beach, FL 32114

Dear Michael,

Congratulations! East Coast Marine Construction & Design (ECMC&D) is a PDCA 2024 Project of the Year Award Winner! The project that ECMC&D entered in the PDCA 2024 Project of the Year Program in the *Earth Retention: Less than \$5 Million* category has undergone a thorough review from our panel of judges who declared it the winning submission.

PDCA will be formally announcing the 2024 Project of the Year winners in *PileDriver magazine* Issue #4 to be distributed in late August 2024, however we wanted you to know in advance of this publication, that your company and project will be prominently featured. We respectfully request that you refrain from publicly sharing this news before it is revealed in *PileDriver magazine*.

From all of us at PDCA, we truly appreciate your participation in Association initiatives like the Project of the Year Program. Your contributions help strengthen this organization and ultimately advance the driven pile. Thank you for your ongoing support of PDCA.

Congratulations on your selection as a PDCA 2024 Project of the Year Award Winner!!

Sincerely,

Brian Heck
President
