To whom it may concern,

We had the opportunity to work with East Coast Marine Construction & Design Inc. on our seawall project at 3555 S. Atlantic Ave. White Surf Condominiums. The team at East Coast Marine Construction was Trustworthy, Reliable, and Candid throughout the whole process. Any questions or concerns were addressed in a timely manner.

Their crews were courteous and kept the project site clean on a day-to-day basis. During construction they were faced with tidal surges, hurricane threats, and state regulations that tried to impede their progress at every step, their management team came up with inventive solutions and worked hand in hand with our local government to ensure the project was completed on time and on budget.

We are excited by how beautiful the project turned out and have no doubt that we are prepared for any future storms.

We would certainly use East Coast Marine Construction again and would recommend them for any future projects.

Sincerely,

Laurel Beaver LCAM
